Cracker 2 Cracker 2 is the second generation of driverless USB television tuner. This brand name was released in June 2004 by BenQ Electronics Co., Ltd. . . . Can list channels by digital TV tuner card types and select by channel number, channel name, even channel number and device name. So you can do tuning just by click the channel, or scan channels by channel name or channel number. Comparison with driverbased tuners Compared with driver based tuners, brand new automatic TV tuner did not take advantage of computers' hardware features, especially . . . DTV Tuner uses manual focusing or auto-focus for the camera lens in accordance with the hardware specification, and does not have hardware auto-focus. . . High Definition In October 2007, BenQ released HDTV tuner. It is the first automatic television tuner compatible with High Definition TV or High Definition Multimedia Interface. . . . Advanced Tuning The TV tuner can automatically switch between channels and adjust frequency automatically. . . . It is the first model of automatic tuner in the history of BenQ that can automatically tune and switch channels. Since August 2008, BenQ has released an improved model, named BenQ Tuner T2000 which can find and scan all the channels. Compared with the T2000 tuner, T300 uses 802.11g Wi-Fi connection instead of using wired Ethernet. Also the T300 uses a battery as a power supply instead of using AC power supply.
