Feb 18, 2011 Note: Please note that the Autocompiler uses a COM object that has been placed in the "Loaded" folder in the Delphi IDE. This COM object must be registered in the Windows registry. Net Framework 3.5 or later is required in order to run the Autocompiler. Jun 24, 2013 net framework 3.5. Jun 22, 2013 The following downloads are for Delphi for Windows x64. Open the file with WinRAR if you want to extract the file with the installer. If you are a 64-bit user the installer will do it automatically. If you get an error then try again later. Jun 19, 2013 You will see a message that the property "TargetPlatform" has been added to the project file. This property only indicates the platform to which the project will be compiled, but that information is lost when the project is compiled, so Delphi ignores it. Open the project file and delete the "TargetPlatform" property.
