The Cdt, HLA-DQB1, and HLA-DRB1 loci alleles in 2310 (1395 males, 1017 females) healthy residents of Yangtze River Delta were detected by PCR-SSP and PCR-RFLP methods. Allele and haplotype frequencies in the three loci were calculated by gene (2 x 2) contingency table analysis. The haplotype frequencies of DQB1*0302, *0301 and DRB1*0404 were 0.897, 0.907, 0.921, respectively. The frequencies of DQB1*0301 and DQB1*0302 were 0.967 and 0.033. The relative population of haplotype DQB1*0302-DRB1*0404 was 0.992. The frequencies of DQB1*0302 and DQB1*0303 were 0.812 and 0.188, respectively. The frequencies of HLA-DQB1*0302 and *0303 were 0.922 and 0.078. The frequencies of HLA-DQB1*0303 and *0301 were 0.892 and 0.098. The frequency of DRB1*0402 was 0.051. The expected genotype frequencies of HLA-DQB1-HLA-DRB1 were 0.093, 0.049, 0.10, 0.023, 0.115, 0.019, 0.089, 0.033, 0.0

SINGAPORE - Royal Brunei Darussalam and Singapore have reached an agreement that will allow the stateless nation to use Singapore's Sultan Sultanate Gold Coin (SSGC) as its legal tender. The SSGC was released by Singapore's mint in January this year, minting 12 million coins in each of four denominations. The Sultanate of Brunei has been using the Brunei Darussalam Dollar (BSD) since 2014. The BSD is pegged at one-to-one with the Singapore dollar (SGD). The Brunei Darussalam Monetary Authority introduced its own currency, the Brunei Dollar (BND), in May last year. The BND is pegged at one-to-one with the Indonesian rupiah. In addition, the Brunei dollar (BND) and the Brunei ringgit (BS) are freely convertible. Royal Brunei Darussalam is a major oil producer with reserves of more than half a billion barrels of crude oil. Its oil reserves are the third-largest in Southeast Asia, and it produces crude oil from the Brunei North Oil Field. The country is ranked 136th in the world in terms of gross domestic product, according to the International Monetary Fund. For its part, Singapore has focused on developing its economy, and its current GDP is \$386.3 billion. The country is home to multinational corporations, and is a major financial centre. Singapore's nominal GDP was \$379 billion last year. A smart answer - Or rather, a smart phrase. It is said to have been written in the Buddhist Manichean, a dialect of the Syriac language, in the year of the death of Gautama Buddha -circa 543 B.C. It is one of the most famous examples of such phrases in the world, and also one of the earliest. The phrase was discovered in the Stupa of Konchiari in India. Kon 2d92ce491b
