Colour Value Converter Crack + With Serial Key [April-2022]

Color Value Converter is a small software application developed specifically for helping you perform conversions between RGB and hexadecimal values. It can be deployed on all Windows versions out there. Microsoft.NET Framework 1.1. or a higher version is needed in order to run the program correctly. Requires no installation You do not have to follow the preset steps included in an installation process because the tool is portable. You can get access to its features by running the executable file. Plus, you may keep it stored on pen drives or other portable devices to carry it with you everywhere you go. It is important to mention that the utility does not populate your Windows registry with extra entries so you may get rid of it with a simple deletion task. Clean and simple looks You are welcomed by a simplistic layout that allows you to tweak the dedicated parameters in a short amount of time. The tool comes packed with a help manual which reveals only a few tips about how to make the most out of the configuration settings. Color conversions Colour Value Converter offers you the possibility to perform conversions from hexadecimal to RGB or vice versa. You just need to pick the preferred conversion task and input six characters of your color code grouped by two. The results are revealed directly in the main window, and you are allowed to copy them to the clipboard so you can quickly paste them into other third-party programs. Tests have pointed out that Colour Value Converter carries out a task quickly and without errors. It is not a resource hog so you do not have to worry that it hampers your computer's performance. Final observations To sum things up, Colour Value Converter comes packed with nothing more than simple features for helping you calculate color values, and is suitable especially for less experienced users. ...and even a mini app builder that lets you plug-in your own little software features. On a cool and calm day, we can say that our tools are quite practical. Why don't you check them out yourself to find out what they can do for you? Requires no installation Each of our products is ready to use instantly. Just double-click the executable file to start enjoying all its features right away. All you need to do is follow the first steps of the setup wizard. At the end of the process you may find out if the setup process was successful or not. If the process worked, then you may get access to our entire menu by clicking on the Start menu logo. However
