I'm trying to figure out how to change the background color and font color of an entire page. I tried select the area and change those properties using the fill button, but it didn't do anything. Any suggestions? I would assume that you can't put a fill on a regular fill.

A: You can only fill top and bottom, left and right. Try one of these four options: Select the area and use the paintbrush or paint tools to fill Change the selected area with the Fill button and draw your own shape Create a clipping mask to apply it to a rectangle on top of the page Change the area with the fill property and paste your fill directly into the area
