Asian Food Day Menu August 9, 2016 Hi everyone, The Asian Food Day menu is not intended to be an accurate representation of a typical Asian meal but rather, a selection of dishes that reflect the region's rich culinary heritage. This menu is inspired by two very Asian restaurants in North America, Ebi, in New York City and the 'Specialty Saimin' restaurant chain, in Canada. The katsu dumplings are great, not a ton of flavor, good texture and crispy on the outside. The spring rolls were bigger than usual. Came with dipping sauce already on the table, but I like the sauce from the Lotus Emerald roll more. The Okonomiyaki, (Korean pancakes) reminded me of a sweet version of the 'carrot cake' from 'The Last Resort'. The pancakes are crispy and the side vegetables add flavor. Tasted much better than the restaurant version. The shaved beef is great. The flavor is a bit more gamey and meatier than a traditional sirloin. The stewed beef is fine, not the best, but we were out of soy sauce and it would probably make a great substitute. It should be soy based, so no milk or suet. It was good, but I was hoping for a better broth. Appetizer: A Spring Roll with Edamame and Mushrooms (\$9.00) Spring Roll with Edamame and Mushrooms This is a huge spring roll, weighing in at about 3oz. The pastry doesn't hold together well but the filling is surprisingly good. I enjoyed the mix of carrot, asparagus, peppers and cucumbers. The sauce is soy sauce based and tastes like a soy-based teriyaki. Lobster and Crab Cakes (\$17.50) This is about a 3oz crab cake with a nice fresh lobster filling. The crab meat was fresh and had a good flavor. The crabmeat is definitely not dry, which surprised me given the size of the cake. I would have liked some more spice and maybe more shrimp in this dish. The pancake is tough but the crab cake was enjoyable. Chicken Meatballs (\$8.50)

FIFA is more than just your typical sports simulation. It brings the game closer to the real thing by choosing the right moment to pause the action and make the right pass, tackle or dribble. More than 100 years of soccer evolution mean that no two FIFA matches are ever the same. Every player is now framed in the context of the new momentum system. This holistic approach to player behavior puts gamers in the heart of the action and changes the way they move on and off the ball. In addition to the new momentum, the ball now becomes more lively, reacting to players, teammates and opponents as it moves. Now, you can interact with players on the field: directly affect their decisions with deflections, through-balls and corners, and the famous new sequence of fan reactions bring more emotion to every play. The game now features Playmaker AI that puts your favorite players in the right place at the right time: when the ball is played forward, they run the channel, and when it's played back, they look for the perfect pass. Matchday chants give you a new sense of camaraderie and support, and you can build and lead your own fan groups to help get you through. We've also invested in a completely rebuilt, state-of-the-art motion-capture system that brings your hero to life. FIFA 22's players look, move, and feel more natural than ever. Prepare to be overwhelmed by the beautifully detailed stadiums. New collision detection, sound design, animations and crowd reactions help create an immersive experience. The dynamic weather system presents challenges and everyday world-class conditions, such as rain, snow or a wet surface. Here's everything you need to know about FIFA 22. Where can I play FIFA on the Xbox One? First and foremost, there are more than 4,500 official licensed FUT content packs available on Xbox One.
